Innovative safety solutions for maximum productivity

The Safety Integrated demo truck shows:

- Local safety solutions for compact machines
- Modular safety solutions for autonomous safety cells
- Flexible integrated safety solutions with PROFIsafe
- Integrated safety solutions for high performance applications
- Efficient engineering with TIA Portal
- Safety Evaluation Tool

Local safety solutions for compact machines

Application packaging with

- SIRIUS safety relays 3SK1 and
- SIRIUS safety motor starters 3RM1

SIEMENS

Autonomous safety solutions: Modular architecture for safety cells

Application logistics: SIRIUS Modular Safety System with ASIsafe

HMI:

diagnostics &

information

Integrated safety solutions: Flexible applications with PROFIsafe

Application handling robot with SIMATIC, SINAMICS, wireless safety

diagnostics

Integrated safety solutions: High perforance applications with PROFIsafe

Application paper industry with Simocode pro PN and SINAMICS S120

information via key panel

Innovative safety solutions with Safety Integrated

Advantages:

- Easy integration into machines and plants
- Scalable solutions for individual safety concepts
- Increased productivity thanks to integrated safety functions
- Flexibility and investment security for modernization
- Savings of cost and time regarding hardware and engineering

Certified products, training and support from a single source
