

Sunmodule® SW 80 mono RHA

Produced in Germany,
the center for solar technology

TUV Power controlled:
Lowest measuring tolerance in industry

25 year linear performance warranty and
10 year product warranty

SolarWorld AG relies on Germany as its technology location, thereby ensuring sustainable product quality.

The TÜV Rheinland Power controlled inspection mark guarantees that the nominal power indicated for solar modules is inspected at regular intervals and thus ensured. The deviation to TÜV is maximum 2 percent.

With its linear performance warranty covering a period of 25 years, SolarWorld guarantees a maximum performance depression of 0.7% p.a., a significant added value compared to the two-phase warranties common in the industry. Therefore, the service certificate offers comprehensive protection for your investment in the long term.
